How does it work?

At Expat support consultancy, your expat journey is efficient and fully tailored to your needs. Whether you are still planning your move or have already arrived, you will find a clear roadmap, structured steps and reliable on-the-ground support, to start your new chapter with ease.

Initial consultation – Understanding your needs

We begin with an introductory consultation (before or after arrival) to get to know each other and understand your goals. You'll also complete a short 5-minute service questionnaire.

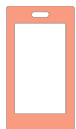

Outline of services - Tailored moving & living in Slovenia plan

Based on our consultation, I create a personalized offer and plan outlining recommended services, timelines, and required documents—adapted to you as an individual, couple, or family.

Kick off – Getting started

Once the plan is agreed upon, we sign a simple service agreement and begin. This includes online consultations, in-person support, and interactive guidance. You'll also receive your welcome package.

Stay in touch & Feedback

As you settle in, you'll gain the tools and confidence to manage independently. And even after your relocation, you'll always have a trusted contact in Slovenia—I stay in touch and check in on your progress.
